## NOTE

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Where the designation "country or area" appears in the headings of tables, it covers countries, territories, cities or areas.

*Population and Vital Statistics Reports* are also available to recipients of the printed publication on the United Nations Statistics Division Internet site.

# INTRODUCTION

This issue of the Population and Vital Statistics Report presents 2001 and 2002 estimates of world and continental population, as well as corresponding 2001 estimates for 234 countries or areas of the world, which are listed separately in the Report. Also shown for each country or area are the results of the latest nation-wide census of population (total, male and female) and, wherever possible, nationally representative statistics of live births, deaths and infant deaths (deaths under one year of age) for the most recent year available. If a nation-wide population census has never been taken, but a sample survey has, the survey results are shown in the "Latest population census" column until census data become available.

This issue of the Population and Vital Statistics Report supersedes all previous issues, and the data contained in it are themselves subject to future revision. For more detailed data and data relating to years not shown here, readers should consult the Demographic Yearbook. 1/

Countries or areas are arranged in alphabetical order within continents.

## I. 2001 AND 2002 ESTIMATES OF WORLD AND CONTINENTAL POPULATION

The table below presents United Nations estimates of the 2001 mid-year population of the world by continental divisions, as well as provisional estimates of the 2002 mid-year population. These estimates, prepared by the Population Division of the United Nations Secretariat, are published in World Population Prospects: The 2000 Revision. 2/ which includes a brief discussion of the methodology used in making these estimates. It should be noted that these aggregates do not coincide exactly with the sum of the figures for individual countries or areas because they include, in addition, adjustments for overenumeration and underenumeration, or overestimation and underestimation, and data for categories of population not regularly included in the official figures. The estimates are as follows:

| | 2001 (millions) | 2002 a/ (millions) |
|---|---|---|
| Word total | 6 134 | 6 211 |
| Africa | 813 | 832 |
| North America b/ | 493 | 498 |
| South America | 351 | 357 |
| Asia c/ | 3 721 | 3 769 |
| Europe d/ | 726 | 725 |
| Oceania b/ | 31 | 31 |

a/ Provisional estimates.
b/ Hawaii, a state of the United States of America, is included in North America rather than Oceania.
c/ Including both the Asian and European portions of Turkey.
d/ Excluding the European portion of Turkey, which is included in Asia.

1/ Demographic Yearbook 1999, United Nations publication, Sales No. E/F.01.XIII.1 and previous editions.
2/ World Population Prospects : The 2000 Revision, (Volume I), United Nations publication, Sales No. E.01.XIII.8

## II. TECHNICAL NOTES

### A. Population

Unless otherwise noted, census or survey results and estimates refer to the de facto population within the present boundaries, as described in table 3 of the Demographic Yearbook.

Latest population census. For the latest nation-wide population census, the census date and the total population enumerated are shown. If no census has been carried out recently but the results of a nation-wide sample survey are available, the survey results are shown in the census column suitably identified. Unless otherwise indicated, these data are the base from which the 2001 estimate has been constructed by the method described below under "Type of estimate".

Mid-year 2001 estimate. Mid-year 2001 estimates of the total population are presented for each country or area of the world. These refer to 1 July In the absence of an acceptable official mid-year figure or a mean of acceptable end-year official estimates, a mid-year estimate made by the Population Division of the United Nations Secretariat is shown. The United Nations estimates, identified in the table by a superscript "x", are taken from World Population Prospects. The 2000 Revision. 1/ The method by which the 2001 estimates were prepared is indicated by the code in the column headed "Type".

Type of estimate. The letter and numeral shown in the column headed "Type' 'indicate the method by which the 2001 population estimates were prepared, so far as could be ascertained. The code is composed of four parts: (I) nature of the base data, (II) recency of the base data, (III) method of the time adjustment and (IV) quality of the time adjustment. The components of the code are listed below for reference; for more detailed explanations, see section 3.2.1 of the Technical Notes in the Demographic Yearbook 2/.

Part I. Nature of base data (capital letter)
- A Complete census of individuals
- B Sample survey
- C Partial census or partial registration of individuals
- D Conjecture
- ... Nature of base data not determined

Part II. Recency of base data (subscript numeral following capital letter)
Numeral indicates time elapsed (in years) since establishment of the base figure

Part III. Method of time adjustment (lower-case letter)
- a Adjustment by continuous population register
- b Adjustment based on calculated balance of births, deaths and migration
- c Adjustment by assumed rate of population increase
- d No adjustment; base figure held constant for at least two consecutive years
- ... Method of adjustment not determined

Part IV. Quality of adjustment for types "a" and "b" (numeral following letter "a" or "b")
- 1 Population balance adequately accounted for
- 2 Adequacy of accounting for population balance not determined but assumed to be adequate
- 3 Population balance not adequately accounted for

Quality of adjustment for type "c"(numeral following letter "c")
- 1 Two or more censuses taken at decennial intervals or less
- 2 Two or more censuses taken, but latest exceeds a decennium
- 3 One or no census taken

1/ World Pupolation Prospects. The 2000 Revision, (Volume 1), United Nations publication, Sales No. E.01.XIII.8
2/ Demographic Yearbook 1999, United Nations publication, Sales No. E/F 01.XIII.1 and previous editions.

## B. Vital statistics

Unless otherwise noted, registered data relate to live births, deaths and infant deaths, excluding foetal deaths, in the de facto population within present boundaries as recorded in civil registers. As far as possible, the data are for live births or deaths that occurred during the given year. In some cases, however, they relate to events registered during that year, including some births or deaths that occurred in previous years, and excluding some events that occurred during the given year but are not yet registered. Data known to be tabulated on a date-of-registration basis are identified by the symbol (+).

Registered rates. Birth and death rates are the number of births or deaths reported in the specified year per thousand mid-year population. Official estimates of mid-year population are used to calculate these rates. If official estimates are not available, mid-year estimates prepared by the Population Division of the United Nations Secretariat are used. Infant mortality rates are the number of deaths of infants under one year of age per thousand live births in the same year. If official estimates of infant mortality rates are not available, estimates prepared by the Population Division of the United Nations Secretariat are used. Unless otherwise noted, the rates shown were computed by the Statistics Division of the United Nations Secretariat and rates were not computed on frequencies of less than ten (10).

Estimated rates. Estimated rates are shown in a separate column for countries or areas for which the registered vital statistics data are assessed as being less than complete. These assessments are discussed below. First priority is given to official estimates such as those from sample surveys. These are identified in the footnotes. When official estimates are not available, estimates prepared by the Population Division of the United Nations Secretariat are presented. These estimates, identified by a footnote, are from World Population Prospects : The 2000 Revision. 2/

Quality of registered data. Each country or area has been asked to indicate the estimated completeness of the live births, deaths and infant deaths recorded in its civil registers. These national assessments are indicated by the quality codes C, U and ... that appear in the table.

C Data estimated to be virtually complete, i.e., representing at least 90 per cent of the events occurring each year;

U Data estimated to be incomplete, i.e., representing less than 90 per cent of the events occurring each year;

... Data for which no specific information is available regarding completeness.

Additional information, when available, on the percentage of completeness of registration can be found in the relevant tables of the Demographic Yearbook. The code does not apply to estimated rates, the quality of which has not been evaluated.

## Symbols

The following symbols are used:

| | |
|---|---|
| .. | Category not applicable |
| ... | Data not available |
| – | Magnitude zero |
| 0 or 0.0 | Magnitude not zero but less than half of unit employed |
| * | Provisional |
| x | Estimate by the Population Division of the United Nations Secretariat |
| + | Data tabulated by year of registration rather than occurrence |
| # | Estimate not revised to take account of latest census or official estimate |

| No. | Continent and country or area | Population | | | | | |
|---|---|---|---|---|---|---|---|
| | | Latest population census | | | | Mid-year 2001 estimate (in thousands) | |

**Footnotes**

1 Population is de jure.

2 Excluding live-born infants dying before registration of birth.

3 For Algerian population only.

4 Estimated rate is for 2000-05

5 Including an adjustment for underenumeration, estimated at 1.4 per cent.

6 Excluding Mayotte.

7 Excluding an adjustment for underenumeration

8 Based on the results of the population census of 1987.

9 Including nomads, estimated at 224,095.

10 Excluding Agalega and St. Brandon.

11 Census result excludes and estimates include adjustment for underenumeration, estimated at 5.1 per cent at 1997 census.

12 Including an adjustment for underenumeration, estimated at 9 per cent at 1985 census.

13 Census result includes an adjustment for underenumeration, estimated at 6.8 per cent at 1996 census.

14 Census result excludes and estimates include adjustment for underenumeration.

15 Including Canadian residents temporarily in the United States, but excluding United States residents temporarily in Canada.

16 Based on the results of the 1993 survey.

17 De jure population, comprising Bonaire, Curacao, Saba, St. Eustatius and part of St. Martin.

18 Including residents outside the islands if listed in the population register of the Netherlands Antilles. Including live-born infants dying before registration of birth. Excluding St. Eustatius.

19 Population is de jure but includes armed forces stationed in the area.

20 Population is de jure but excludes civilian citizens absent from country for extended period of time.

21 Excluding armed forces overseas.

22 Comprising St. Croix, St. John and St. Thomas.

23 Census result excludes and estimates include adjustment for underenumeration, estimated at 6.92 per cent at 1992 census.

24 Excluding Indian jungle population.

25 Based on burial permits.

26 Excluding nomadic Indian tribes.

27 Census result excludes and estimates include adjustment for underenumeration, estimated at 6.29 per cent at 1990 census.

28 A dispute exists between the Governments of Argentina and the United Kingdom of Great Britain and Northern Ireland concerning sovereignty over the Falkland Islands (Malvinas).

29 Census result excludes and estimates include adjustment for enumeration, estimated at 7.40 per cent at 1992 census.

30 Census result excludes and estimates include adjustment for underenumeration, estimated at 2.35 per cent at 1993 census.

**Footnotes (continued)**

31 Including an upward adjustment for under-registration.

32 Census result excludes and estimates include adjustment for underenumeration, estimated at 6.7 per cent at 1990 census.

33 Excluding nomads.

34 Census result excludes and estimates include adjustment for underenumeration, estimated at 5.0 per cent for urban population and 10.0 per cent for rural population, at 1979 census.

35 Excluding infants born alive after less than 28 weeks" gestation, of less than 1,000 grammes in weight and 35 centimetres in length, who die within seven days of birth.

36 Census result and estimates include adjustment for underenumeration, estimated at 3.08 per cent at 1991 census.

37 Population excludes transients afloat.

38 The data for China include Hong Kong Special Administrative Region (Hong Kong SAR), and Macao Special Administrative Region (Macao SAR) which are also shown separately below for statistical purposes. The total figure also includes Taiwan province.

39 Data are for Sample Survey.

40 Including Non-permanent residents who were in Hong Kong at the census moment.

41 Excluding Vietnamese refugees.

42 Government controlled areas only.

43 Including the Indian-held part of Jammu and Kashmir, the final status of which has not yet been determined.

44 Census result excludes and estimates include adjustment for underenumeration, estimated at 1.5 per cent at 1991 census.

45 Based on a sample registration scheme.

46 Figures provided by Indonesia include East Timor, shown separately above.

47 Estimated by the Statistical Centre of Iran.

48 Including data for East Jerusalem and Israeli residents in certain other territories under occupation by Israeli military forces since June 1967.

49 Excluding diplomatic personnel outside the country and foreign military and civilian personnel and their dependants stationed in the area.

50 For Japanese nationals in Japan only.

51 Including military and diplomatic personnel and their families abroad, numbering 933 at 1961 census; excluding foreign military and diplomatic personnel and their families in the country, numbering 389 at 1961 census. Also including registered Palestinian refugees, numbering 722,687 on 31 May 1967.

52 Excluding Jordanian territory under occupation since June 1967 by Israeli military forces.

53 Excluding alien armed forces, civilian aliens employed by the armed forces and foreign diplomatic personnel and their dependants.

54 Including 28,834 foreigners.

55 Based on the results of the continuous demographic sample survey.

56 Based on results of a sample survey, excluding Palestinian refugees in camps.

57 For Peninsular Malaysia, excluding deaths of live-born infants dying before registration of birth.

**Footnotes (continued)**

58 The figures were received from the Palestinian Authority and refer to the Palestinian population.

59 Census result excludes an estimate for underenumeration estimated at 2.4 per cent.

60 Excluding Jammu and Kashmir, the final status of which has not yet been determined. Also excluded are Junagardh, Manavadar, Gilgit and Baltistan.

61 Based on the results of the Population Demographic Survey.

62 Population excludes transients afloat and non-locally domiciled military and civilian services personnel and their dependant and visitors, numbering 5,553, 5,187 and 8,985, respectively, at 1980 census.

63 Population includes Palestinian refugees, numbering 193,000 on 1 July 1977.

64 Births and deaths registered within one month of occurrence. Excluding births and deaths among Palestinian refugees and nomad population; however, rates computed on total population.

65 Based on the results of the 1989 Population Survey.

66 Excluding visitors.

67 Excluding Faeroe Islands and Greenland, shown separately.

68 Including nationals temporarily outside the country.

69 Excluding Overseas Departments, namely, French Guiana, Guadeloupe, Martinique and Reunion, shown separately. Population is de jure but excludes diplomatic personnel outside country and includes foreign diplomatic personnel not living in embassies or consulates.

70 Excluding military personnel stationed outside country who do not have a personal residence in France.

71 Through accession of the German Democratic Republic to the Federal Republic of Germany with effect from 3 October 1990, the two Germany States have united to form one sovereign State. As from the date of unification, the Federal Republic of Germany acts in the United Nations under the designation "Germany".

72 Excluding armed forces.

73 Including armed forces stationed outside country, but excluding alien armed forces stationed in the area.

74 Data refer to the Vatican City State.

75 Population includes civilian nationals temporarily outside country.

76 Computed on population including civilian nationals temporarily outside country.

77 Based on a compilation of continuous accounting and sample surveys.

78 Including residents outside the country if listed in a Netherlands population register.
